Establishing Capacity for Pathogen Genomics Addis Ababa, Ethiopia, May 2023

Session 6: Establishing needs for pathogen genomics skills development

Alice Matimba, Liã Bárbara Arruda

Establishing Capacity for Pathogen Genomics Addis Ababa, Ethiopia, May 2023

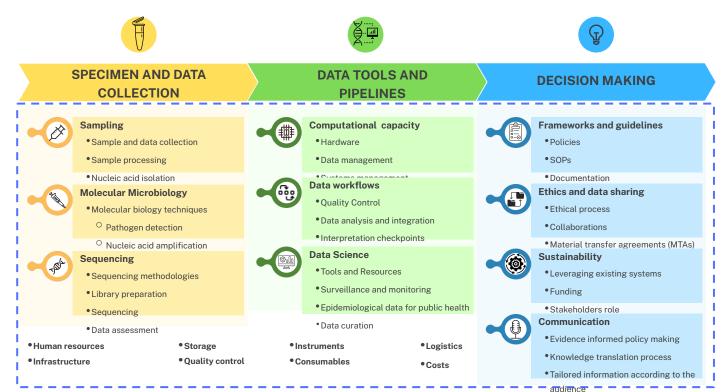

Session objectives and outcomes

- This session will cover competencies required along the sample to decision-making pipelines, training gaps and needs
- At the end of this session participants will outline training gaps and needs for developing capacity in own institute

Establishing Capacity for Pathogen Genomics Addis Ababa, Ethiopia, May 2023

Sample to decision-making pathway

wellcome connecting science

Skills gap analysis

Group work

- Participants indicate where they fit most along the pipeline
- Participants indicate what skills they think are needed at each step of the pipeline and discuss
- Then map whether those competencies exist in own environment Identify potential training needs for own environment

Focus on the process, not the people
